

# YOUNG PERSON'S FORUM

We met online tonight, 7.08.24.

Tonight, I wanted to pass on that everyone had been talking about the great work you all had done at the safari park. Everyone was blown away with how well you all done chatting to adults and young people. You all came across as friendly and positive as well as passionate about the young peoples forum. I was very proud of you all yesterday just as I am every month.

We talked about not getting many entries into the logo competition and that you would all like to do this activity again at laser tag in the hope that someone is able to give you all a good logo.

You all agree that you want to wear your YPF t-shirts to laser tag.

We talked about how do we get more people involved in the YPF, you would all like to do something like a newsletter but where you are videoed introducing yourself and a bit about the YPF. You would then like this to be sent out to all young people in care visions. There was a discussion around promoting it as a good mix of fun and seriousness.

We looked at the web page and you all agreed you would like to have the topics you've talked about removed from it. You would like it to say, The YPF enjoyed meeting everyone who attended the safari park and look forward to seeing some of you at laser tag. This month we have been working on training for staff on technology and hope to deliver this in October.

We talked about the fact that one member of the group will be 18 this month and that he might be willing to do a video that goes on the YPF web page.

I mentioned that I will be off the first week in September and asked if you would all like that weeks meeting to be rearranged or if you would just like to leave it and see each other in person at laser tag. You all agreed to cancel the meeting as you will all be back at school and we will see each other at laser tag.

Thank you for all your hard work!
