

# YOUNG PERSON'S FORUM

We met in person on the 25<sup>th</sup> July. And used our time together for all of you to design and plan training for the staff team. The training is on technology and its importance in your life. You all hope to do this training in the October break we just have to make sure no ones families have any other commitments and plans. You all took turns in talking, listening to each other's point of views and were respectful of each other through out.

You agreed on a design for your T-shirts, that you will wear at the safari park. As well as this we planned how to advertise the young persons forum and the laser tag. These will be advertised on leaflets inside cups and handed out to every young person that attends the safari park.

You all also plan to run a competition for the young people at the safari park to design a YPF logo.
